

SUSTAINABILITY RATING REPORT

THE REPORT

The SUSTAINABILITY RATING REPORT is the comprehensive version of the 1 page SUMMARY REPORT, consisting of 15-20 pages of much more detailed and a lot of additional information.

WHO SHOULD BE INTERESTED

The report is edited specifically for users, which are interested in the external experts' point of view on a company's strengths and weaknesses concerning all important areas and issues of corporate sustainability. Target groups within the company are

> managers with strategic (management/supervisory board) and overall responsibilities (such as IR, corporate communication)

> departments with specific sustainability related duties (such as CSR, social sponsoring, customer relations, HR, environmental protection, procurement).

The report can also be disclosed to other internal or external readers (such as employees, media, clients, investors) via intranet, website or printed versions.

CONTENT

The report starts with a summary of the results and a brief description of the rfu Rating Model.

> Chapter A contains a general company profile (as introduction for external readers).

> If applicable, chapter B describes involvements in exclusionary screens (arms, nuclear energy, etc.).

> Chapters C and D discuss issues, characteristics, strengths, weaknesses, risks and opportunities in line with the 6 stakeholder groups and 4 management levels of the rfu Rating Matrix.

> In Chapter E aggregation and the total rating is outlined, as well as rating history and outlook.

> Chapter F contains a benchmarking of the company within the geographical and sector peer groups.

> Finally chapter G provides recommendations and milestones, which are aimed to improve sustainability performance and rating results.

FEEDBACK WORKSHOP

In addition, we can offer a half day FEEDBACK WORKSHOP, where results and recommendations are presented and discussed with company representatives.
